

HAPPY-TRAIL.COM

Thank you for purchasing Happy Trails products. Our products are proudly hand made in Boise Idaho, USA. If you have any questions or concerns about the installation of this product, please contact us

Before you begin, place the bike on a hard level surface where you have room to work. Lay out the parts included in this kit and compare to the parts list in these instructions. If any parts or hardware are missing, contact us immediately at the number listed above.

NOTE:
When installing HT guards and racks, leave all bolts loose until entire rack is fitted. This allows the rack to move and take up differences in frame constructions. We recommend that thread locking compound be used on all bolts.

Installation Instructions

Remove the upper passenger peg mount bolts.

Mount the OSR racks one side at a time. The front mount mounts to the top passenger peg bolt hole with a M8x60 SHCS.

The rear mounts fit to tabs on the frame. The right rear mount uses a M8x25 SHCS bolt and the left rear uses a M8x60 SHCS.

When all mounting points are started, then go back and tighten up all connection points.

Bolt List:

- | | |
|---|------------|
| 1 | M8x25 SHCS |
| 3 | M8x60 SHCS |
