

*Thank you for purchasing Happy Trails products. Our products are proudly hand made in Boise Idaho, USA. If you have any questions or concerns about the installation of this product, please contact us directly at 1-800-444-8770 or e-mail [installation@happy-trail.com](mailto:installation@happy-trail.com).*

Before you begin, place the bike on a hard level surface where you have room to work. Let bike cool. Lay out the parts included in this kit and compare to the parts list on the last page of these instructions. If any parts or hardware are missing, contact us immediately at the number listed above.

**NOTE:**

The use of a fender raising kit will cause the fender to impact the oil cooler guard and is not recommended.

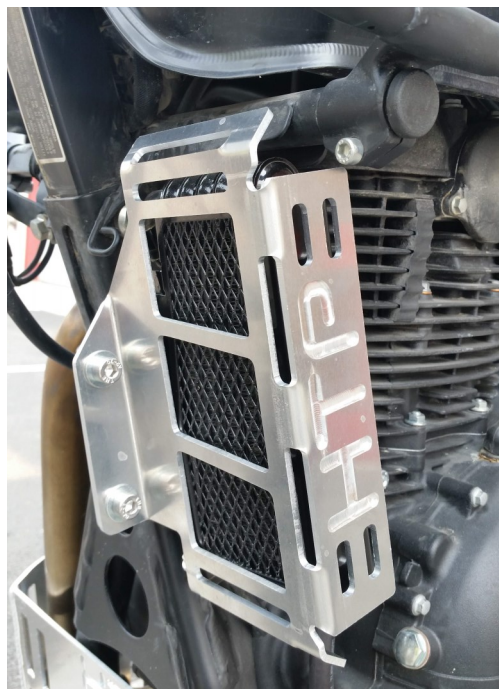

**Step 1: Install mounting bracket**

Remove the two bolts that are circled in **Figure 1a**. Place the mounting bracket under the rubber mounted oil cooler and re attach the two bolts and tighten. Next , place the oil cooler guard as shown in figure 1B with the supplied 8x20 bolts and 8mm washers. Tighten. Ensure that no part of the guard is rubbing the oil cooler. The installation is complete.
